FAQs

Are your materials linked to the MOE?
Our courses follow the MOE syllabus and each lesson has a clear set of outcomes that help students build on their classroom knowledge. In addition we have close links with the MOE and have trained many of their teachers.

What do you teach on the courses?
We teach a variety of skills and language linked to the MOE learning outcomes. These include different styles of composition, comprehension, listening and speaking tasks. By using a variety of contexts we expand students’ grammar and vocabulary knowledge so that they can communicate confidently in the areas assessed by the O-level and General Paper examinations.

How will the students be assessed?
All our lessons have clear learning outcomes that teachers use to assess the students throughout the course. You will receive regular reports and there are parent-teacher consultations to keep you informed of your child’s progress. If you, or the teacher, feel that your child needs extra support then we are happy to arrange a meeting and decide on an action plan tailored to your child’s specific needs.

How do the teachers deal with classroom management?
Our well-trained and qualified teachers are well-versed in classroom management. Our current class size promotes group speaking activities and meaningful group presentations. We also teach useful life skills such as collaboration, teamwork and social skills.
SECONDARY 1 – EXAMINATION PRACTICE

How do you build up to the O-level (2013) and GP exams?
Our curriculum designers work closely with the MOE and our teachers understand Singaporean examinations. We have courses dedicated to the major exams. Our courses build on the skills needed for the O-level and General Paper exams and can be supplemented with our intensive holiday courses. We focus on the learning outcomes that students need, including text-types practice, oral skills and complex inference and vocabulary questions.

I’m studying for another course (IB, IGCSE etc.), are your courses suitable?
Yes. Our courses are skills based and we cover all the main text types needed for success in an English subject. If a student has particular questions about another exam format then we are happy to offer advice and support.
