

June 2024 Holiday Camps: Overview

Primary

This holistic programme combines a focus on the academic skills needed for success at school and in exams, while building confidence in collaboration, reading, writing for different audiences and outcomes, critical thinking and sharing informed opinions.

Stimulating materials and activities such as games, music and tasks are used to help our learners employ logic and higher-order thinking skills. Classes support children in their personal, social and emotional development as well as in developing important 21st-century skills.

Our aim is to provide a positive and inclusive environment where children are free to express themselves and ask questions. Lessons relate to children’s personal experience, with each child being treated as an individual so that language can arise naturally.

We believe that the key to children’s future success involves combining key language skills with core skills around:

- Leadership and personal development
- Critical thinking and problem-solving
- Collaboration and communication
- Creativity and imagination
- Digital literacy
- Citizenship
