

Summer 2023 Study Camps: Overview

Secondary

Each week our Secondary summer study camp focusses on a different academic topic, through engaging materials written specifically for international students. Our aim is to provide a positive and inclusive environment where children are free to express themselves and ask questions and engage in collaborative tasks to develop their language skills. Lessons relate to cultural topics, innovation, and technology, 21st century skills and personal development. Learners will explore age appropriate, relevant topics and tasks that will relate both to their personal and academic lives. They will gain general knowledge, develop the skills helping them to become confident speakers and writers through individual, collaborative, creative and contextualised tasks.
